

The diagram illustrates the structure of the C/CAN network, organized into concentric rings around a central hub.

Central Hub: C/CAN

Ring 1 (Outermost): 12 segments representing major regions or organizations:

- by CHFL
- by City Project
- by City Car
- by Launch
- by Develop
- by Support
- by Support
- by Support
- by 5 sets
- by Emerg
- by Partner
- by Asia

Ring 2 (Middle): 24 segments representing specific projects or activities, each starting with 'by' followed by a region/organization name and a connector symbol (e.g., 'by CHFL', 'by City Project', 'by City Car', 'by Launch', 'by Develop', 'by Support', 'by Support', 'by Support', 'by 5 sets', 'by Emerg', 'by Partner', 'by Asia').

Ring 3 (Innermost): 24 segments representing specific projects or activities, each starting with 'by' followed by a region/organization name and a connector symbol (e.g., 'by CHFL', 'by City Project', 'by City Car', 'by Launch', 'by Develop', 'by Support', 'by Support', 'by Support', 'by 5 sets', 'by Emerg', 'by Partner', 'by Asia').
